FRANKLIN COUNTY, MISSOURI

"Franklin County is situated in the eastern part of Missouri. It is bounded on the north by Warren and St. Charles Counties, separated from them by the Missouri River; on the east by St. Louis and Jefferson Counties; on the south by Washington and Crawford Counties, and on the west by Gasconade County....

The early inhabitants of Franklin County were chiefly distributed in a few settlements along the Missouri River, mainly on "Spanish grants", tracts of land ceded by the Spanish governor of St. Louis. The settlements were known as the "Labaddie" settlement, the "DuBois" settlement, the "St. John" settlement, the "Newport", the "Boeuf" and the "Berger" settlement."

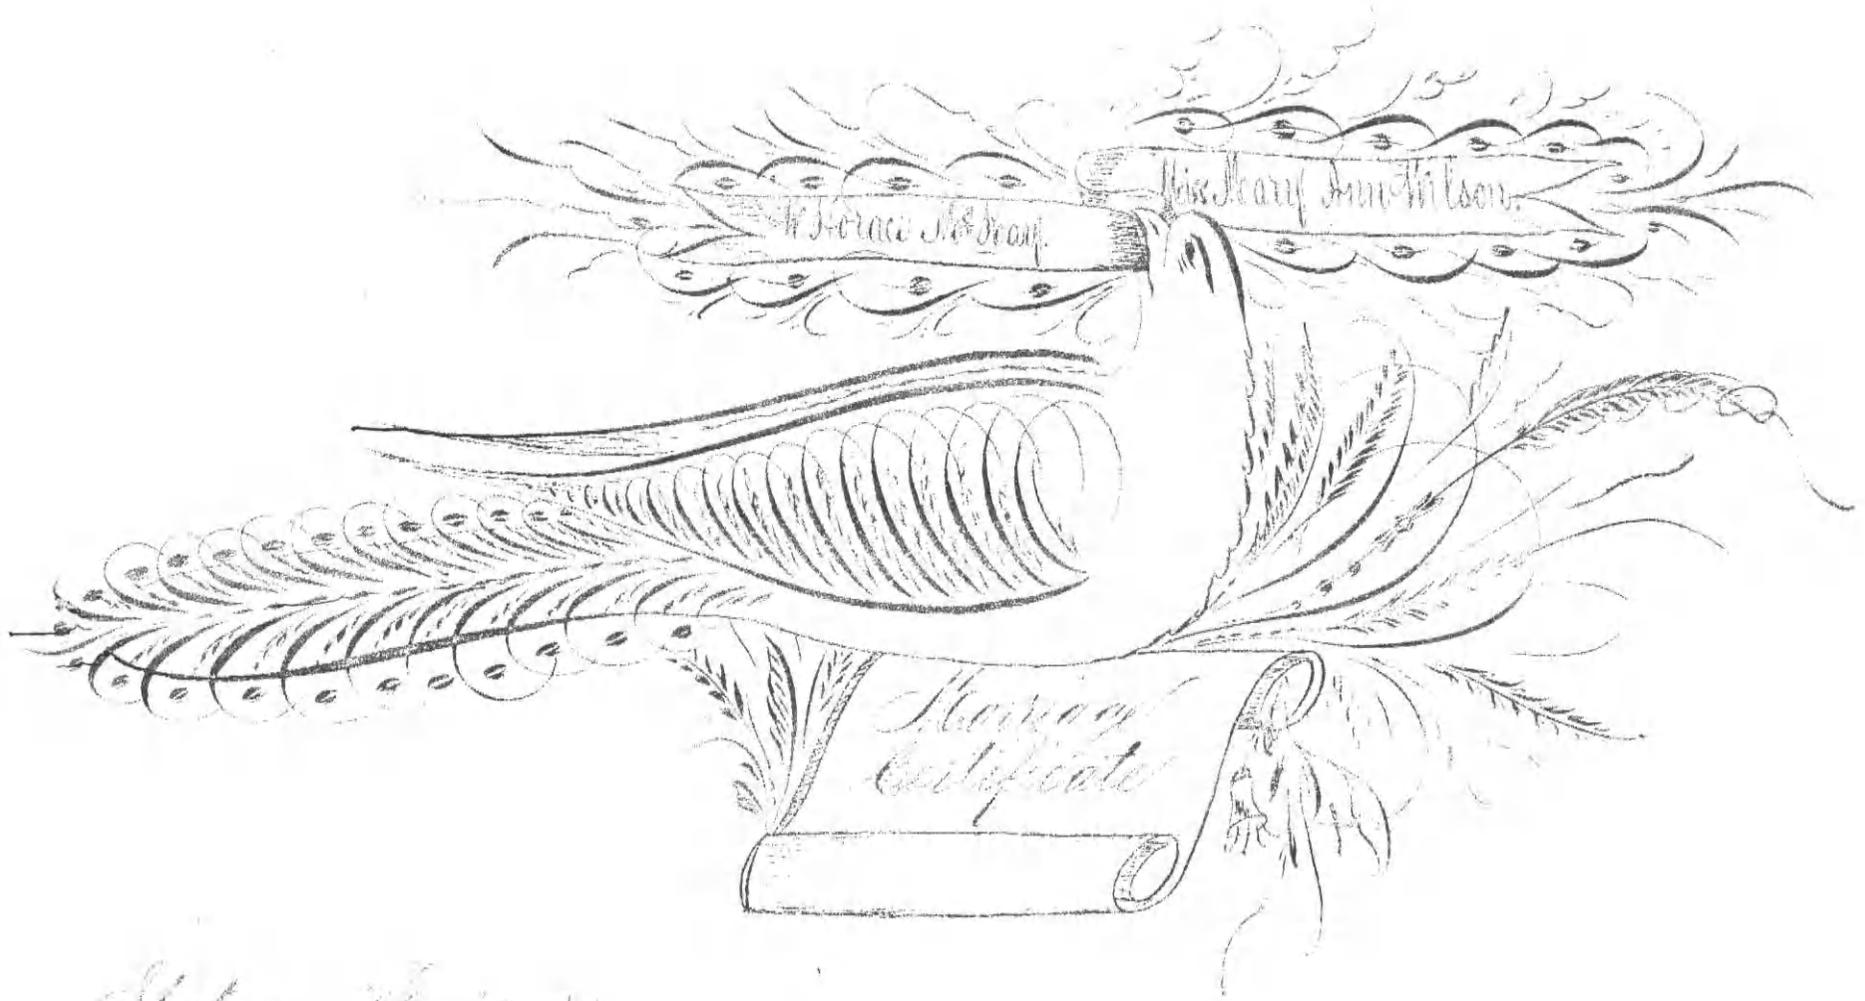

The act establishing Franklin County was approved 11 Dec. 1818. Newport, situated near the Missouri River, was selected as the county seat, and here the courthouse and other public buildings were erected. In 1819 the following townships were formed - St. John, Meramec, Boeuf and Gasconade. On 25 Nov. 1820 Gasconade County was formed, which greatly reduced the size of Franklin County. In 1826 the county seat was changed to Union.

In 1873 the following townships and voting places were established: Boles Twp. - Gray's Summit, St. Johns Twp. - Cleves' Mill, Washington Twp. - Washington, Calvey Twp. - Catawissa, Prairie Twp. - Prairie school house, Central Twp. - St. Clair, Meramec Twp. - Stanton, Boone Twp. - Japan, Lyon Twp. - Port Hudson post office, Boeuf Twp. - Blish's mill, New Haven Twp. - New Haven, Union Twp. - Union.

The above information is taken from Goodspeed's History of Franklin, Jefferson, Washington, Crawford and Gasconade Counties, Missouri. Goodspeed Publishing Co., Chicago, 1888.

EXPLANATORY NOTES

The 2,600 marriage records presented here were transcribed from a microfilm copy of the original marriage books, made in the office of the Recorder in the Franklin County Courthouse at Union, Missouri.

Marriage Book "A" covers the years 1819-1844. Every name in the book has been checked against the index. Whenever there is a variance in spelling, the "index spelling" has been placed in parenthesis immediately following the name recorded in the register. In Book "B", covering the years 1844-1858, the marriages are indexed by groom only. The name of the groom is also written into the margin of the book, thus the name of the groom has been triple checked. Variations found in the index or margin are placed in parenthesis following the name. The brides are not indexed in Book "B", and the name must be determined from the single entry in the marriage register. All of the different "spellings" are given in the index at the end of this book. The reader should check all possible spellings of a name.

Many of the marriages are not recorded in the index. Instead of making note of the omissions, the compiler has given the page number of the original book and listed the marriages in the order in which they appear. Often the marriages were recorded several months, and sometime years, after the marriage date. When additional genealogical information is found in a marriage record it is given on a second line. It is understood that all parties were "of age" and were residents of Franklin County unless otherwise stated.

Many individuals wrote in these books - some with a bold beautiful hand - others with a script that was barely decipherable. In the year 1854 the writing is especially poor, the ink has faded and bled through the paper to distort the opposite side of the page. It appears that in many instances the minister or justice recorded his own marriages, and the clerk merely verified the record. One minister, Dr. Rudolf John, had a most unusual script, and gave the German spelling to some words, such as "Mai" for the month of May.

German immigrants moved into Franklin County about 1840, settling along the Missouri river, mainly in the Washington and Berger communities. The 1860 Federal Census reported 4,951 foreign born in the County.

A "Key" to the names of the ministers and justices who performed the ceremonies has been placed at the end of the marriages in this book, beginning on page 90. The names are alphabetized and are not repeated in the Index.

The compiler has not changed the spelling of names, although she realizes that the version in use today may be different. Names were often spelled according to their sound, so the reader would be wise to consider all possible spellings. Please note that a surname is listed only once for a page, although the surname may occur several times on that page.
